

ANSHIKA SAXENA

Aspiring ML Engineer | B.Tech Computer Science & Design

9310505178 • saxenakhushi081@gmail.com • Ghaziabad, Uttar Pradesh, India

GitHub: github.com/saxenakhushi081-svggg • LinkedIn: linkedin.com/in/anshika-saxena-155026331 • CodeChef: codechef.com/users/saxena_anshika

PROFESSIONAL SUMMARY

Computer Science and Design undergraduate with a strong interest in Artificial Intelligence, Machine Learning, and intelligent software systems. Experienced in developing academic and hackathon projects using Python, machine learning algorithms, SQL, and modern web technologies. Completed internships in Machine Learning and Data Analytics with Python & Power BI, with hands-on experience in regression, clustering, classification, data analysis, and dashboard development. Contributed to AI-driven projects through backend and frontend development and regularly participates in technical competitions and hackathons.

EDUCATION

IMS Engineering College, Ghaziabad

B.Tech, Computer Science & Design

Aug 2024 – May 2028 | CGPA: 7.34/10

KDB Public School, CBSE

Class XII-PCM: 2023 – 2024 (69.9%)

KDB Public School, CBSE

Class X: 2021 – 2022 (75.9%)

TECHNICAL SKILLS

Programming:	Python, Java, C
Machine Learning:	Linear Regression, K-Means Clustering, Support Vector Machine, Scikit-learn
Data & Visualization:	Pandas, Matplotlib, Seaborn
Frontend:	HTML, CSS, JavaScript
Backend:	Python
Databases:	SQL
Concepts:	Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems
Tools & AI:	Git, GitHub, JSON, File Handling, Gemini API

EXPERIENCE

Machine Learning Intern | Prodigy Infotech

15 July 2026 – 15 August 2026

- Developed four machine learning projects applying practical ML techniques to real-world datasets.
- Implemented Linear Regression, K-Means Clustering, and Support Vector Machine models.
- Used Python and data-processing techniques for model development and analysis.
- Performed data preparation, model training, testing, and evaluation across internship projects.

Data Analytics with Python & Power BI Intern | EduSkills Virtual Internship

June 2026 – July 2026

- Developed practical skills in Python, SQL, and Microsoft Power BI for data analytics.
- Completed a capstone project focused on E-commerce Sales and Customer Insights.
- Designed an interactive Power BI dashboard to analyze sales and customer-related information.
- Applied data analysis and visualization techniques to convert raw data into meaningful insights.

PROJECTS

Railway Management System | Python | OOP | JSON | File Handling | Git & GitHub

github.com/saxenakhushi081-svg/Railway-Management-Systemmm

- Individual Python application with user registration/login, train search, ticket booking, cancellation, booking history, and wallet management.
- Implemented admin features for adding/removing trains and viewing bookings using OOP, JSON storage, file handling, and modular programming.

Library Management System | Python | JSON | File Handling | OOP

github.com/saxenakhushi081-svg/Library-Management-Systemmm

- Individual console-based library application supporting book addition, removal, title/ISBN search, borrowing, and returning.
- Implemented ISBN duplicate validation and persistent JSON storage so records remain available after restarting the application.

Sehat Saathi | Python | SQLAlchemy | JavaScript | Gemini API | JWT

github.com/saxenakhushi081-svg/Sehat-Saathi-2.000

- Team project for an AI-driven healthcare platform connecting patients and doctors; contributed primarily to backend development.
- Developed backend functionality using SQLAlchemy, JWT authentication, bcrypt, and Gemini API integration.

ForgeMind AI | Python | Gemini API

github.com/saxenakhushi081-svg/ForgeMindAIll

- Team project for an AI-powered Industrial Knowledge Intelligence Platform; contributed primarily to frontend development.
- Built responsive interfaces for document upload, AI document interaction, semantic search, analytics, knowledge visualization, RCA, compliance, notifications, and authentication.

ACHIEVEMENTS & HACKATHONS

- **Build With Bharat - Microsoft** (1 August 2026) – Team | CodeVerse
- **Buildthon - Thoughtworks Technology** (1 August 2026) – Team | Tech4hack
- **WEBNOVA 2026** (Round 3 Finalist) – Team | HackerRank Campus Crew - IMS Engineering College
- **Hackday Agra 2026** (30-31 May 2026) – Team | Optimaxin Solutions Software Solutions Pvt. Ltd.
- **Bharat-Tech Xperience 3.0** (3-4 April 2026) – Team | Uniques Community at SVGOI
- **Gemini Buildathon** (6 November 2025) – Team | Google Student Ambassador Program

CERTIFICATIONS

- **Data Analytics with Python & Power BI** – EduSkills | Aug 2026 | Credential: 2026-C0A0AC36E9
- **Getting Started with Artificial Intelligence** – IBM Skills Build | July 2026
- **AWS Academy Graduate - Machine Learning for Natural Language Processing** – Amazon Web Services | May 2026 | Credential: 3d80bad3-a76d-406d-ba6e-ffce45c62f86
- **Red Hat Training: Getting Started with Linux Fundamentals (RH104-RHA) - Ver. 9.1** – Red Hat | July 2026 | Credential: 42214bca-b8dc-4a41-a43e-89e58b3e732a
- **Gen AI Virtual Internship** – EduSkills Foundation | April-June 2026 | Credential: 45f6911230d97688ca18
- **Comprehensive Technical Assessment** – EISystems Technologies | May 2026

ADDITIONAL INFORMATION

Career Interest: Artificial Intelligence, Machine Learning, Data Analytics | **Strengths:** Problem Solving, Project Development, Team Collaboration, Continuous Learning | **Languages:** English, Hindi
